

Taif Obaid Alharbi

computer science | student

 [+966554152702](tel:+966554152702)  taifalha11@gmail.com  [LinkedIn Account](#)  Saudi Arabia

OBJECTIVE

computer science student with expertise gained from specialized coursework, including software development, data analysis, and system design. Highly skilled in programming languages such as Java, and C++, python , as well as SQL for database management. Eager to apply technical skills and contribute to organizational success in the field of computer science.

EXPERIENCE

My background has been built through academic coursework, hands-on projects, and specialized training courses. I am motivated to contribute effectively, deliver meaningful results, and adapt quickly to new work environments while continuously developing my skills.

EDUCATION

Qassim University | Saudi Arabia

Bachelor’s student | Computer Science

- Gained advanced proficiency in computer science principles and practices.
 - Developed expertise in understanding and implementing software development standards and procedures.
 - Attained proficiency in programming languages such as Python, Java, and C++, as well as SQL for efficient database management.
-
